The Problem

The "Black Box" of Recruitment

Why do qualified candidates fail? The hurdles are invisible and exhausting.

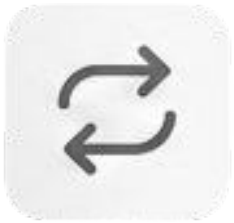

The ATS Abyss

Great resumes often get rejected before reaching recruiters, simply because they aren't optimized for ATS screening.

Reliance On Subjective Help

Candidates often depend on friends or expensive coaches for interview practice instead of structured guidance.

Lack Of Feedback Loops

Great resumes often get rejected before reaching recruiters because they aren't optimized for ATS screening.

The Solution

MentorX

Interview Preparation Agent

MentorX is a specialized agent that automates the entire interview preparation lifecycle. Here is how it works

01

AI Profile

Create your profile instantly with AI.

02
